

Help Out on State Natural Areas

Observatory Hill Workday

Warm up with a fire! A large-scale restoration is taking place at Observatory Hill State Natural Area and this is your chance to help. We will be removing downed woody debris and selectively cutting cedar to increase the population of understory plants present at this site. We will throw these on the fire. Work will require energy and take place on sloping to steep terrain. No skills needed you will be trained onsite.

Date: February 9

Time: 9am-noon

Directions: Meet at Observatory Hill parking lot [Google map](#).

What to wear: Dress for the weather, bring work gloves, protective eyewear, hard hat (we will have extra safety gear).

Contact, cancellation and RSVP info: If you plan to come please email jared.urban@wisconsin.gov or call 608-228-4349. If the workday is cancelled a message will be left at this number at least 2 hours in advance. If there is no cancellation message the workday will go as planned.

2017 workday
